PROFESSIONAL SUMMARY

Creative and detail-oriented UI/UX Designer with hands-on experience designing user-centered digital products through end-to-end case studies. Skilled in UX research, wireframing, prototyping, interaction design, and design systems using Figma and Framer. Passionate about solving real-world problems through intuitive, accessible, and visually engaging user experiences.

ABOUT ME

I am a passionate UI/UX Designer with a background in Mechanical Engineering and a strong interest in creating meaningful digital experiences. I recently completed an Executive Post Graduate Certification in UI/UX Design with Generative AI & Agentic AI. I enjoy understanding user needs, simplifying complex workflows, and designing products that are both functional and visually appealing.

CORE SKILLS & TOOLS

- **UX Design:** User Research, User Personas, User Journey Mapping, Information Architecture, User Flows, Wireframing, Prototyping, Usability Testing
- **UI Design:** Visual Design, Design Systems, Responsive Design, Auto Layout, Components & Variants, Accessibility, Micro-interactions
- **Tools:** Figma, Framer, FigJam, Adobe Photoshop, Adobe Illustrator, Canva

DESIGN PROCESS

Empathize → Define → Ideate → Wireframe → Prototype → Test → Iterate

FEATURED CASE STUDIES

MeetMind AI — AI Meeting Assistant (AI Productivity)

- **Concept:** Designed an AI-powered meeting assistant that records meetings, generates smart summaries, provides live transcription and translation, and helps teams improve collaboration through AI-powered productivity features.

- **Key Skills:** AI Product Design • UX Research • User Flow • Dashboard Design • Information Architecture

SaveSmart — Smart Savings App (FinTech)

- **Concept:** Designed a goal-based savings application that enables users to achieve financial goals through automated savings, shared savings, investment planning, and visual progress tracking.
- **Key Skills:** Product Design • Financial UX • Mobile UI • Design Systems

Spatial Living — AR/VR Interior Transformation (AR/VR)

- **Concept:** Designed an immersive AR/VR experience that allows users to visualize furniture placement and redesign interior spaces before making purchasing decisions.
- **Key Skills:** Spatial UX • User Research • Wireframing • Prototyping

Rapido Ambulance Mode (Mobility & Emergency Services)

- **Concept:** Designed an emergency ambulance booking experience focused on reducing response time through a simple, accessible, and user-friendly interface.
- **Key Skills:** Emergency UX • Accessibility • Mobile App Design

EDUCATION & CERTIFICATION

Executive Post Graduate Certification in UI/UX Design with Generative AI & Agentic AI

iHUB DivyaSampark, IIT Roorkee (Training Partner: Intellipaat) | December 2025 – July 2026

Bachelor of Engineering (Mechanical Engineering)

Sona College of Technology, Salem | 2021 – 2024

Diploma in Mechanical Engineering

Muthayammal Polytechnic College, Namakkal | 2018 – 2021

ACHIEVEMENTS

- Designed four end-to-end UI/UX case studies mapping complex system designs.
- Created responsive mobile application interfaces focusing on accessibility and visual hierarchy.
- Applied user-centered design principles to solve real-world, industry-standard product challenges.
- Built high-fidelity interactive prototypes featuring micro-interactions using Figma and Framer.

LANGUAGES & INTERESTS

Languages: English, Tamil

Interests: Product Design, AI in UX, Design Systems, Accessibility, Mobile App Design, Interaction Design
